Do you know

Clinical Cardio Diabetic Society of India (CCDSI) was established on World Diabetic Day; 14th November 2016 at a meeting of API, CSI, and RSSDI members from Bihar. Dr. (Prof.) A. N. Rai is the founder president of the society. It aims to update clinicians of medicine and allied branches on newer developments in diagnosis and management in the fields of Cardiology, Diabetes, Hypertension, Nephrology, and Metabolic diseases by holding regular CMEs, Conferences, Workshops & Educational Courses.

BENEFIT

CMEs and Conferences

CCDSI had its 1st National Conference at Sunder Ban in September 2017, 2nd at Mount Abu in October 2018, 3rd at Chennai in September 2019. The 4th National conference was held as a virtual conference on 10 & 11 October 2020 due to covid. The 5th National conference of CCDSI was held at Puri, Odisha in November 2021. The 6th annual conference is planned at Goa on 4th-6th November 2022. CCDSI also conducts regular CMEs in various part of country from time to time.

Chapters and Branches

Bihar and Jharkhand is the first State to establish its state Chapter in 2017 followed by Tamil Nadu. At present CCDSI is having State chapters of Odisha, Gujrat, and West Bengal also. Soon we are going to have state chapters of Haryana, Karnataka, and Rajasthan.

Newsletters and e-library

We publish Quarterly e-Bulletin on Cardiology, Diabetes, Hypertension and Nephrology covering clinically important topics for practitioners.

Our website is having e-library in which educational materials like e- Bulletins and talks and lectures of senior faculties of CCDSI is uploaded. It is free to access for educational purpose.

Sunday Academic Meet

We publish a topic and/or update on ECG, written by our past president Dr. D. P. Khaitan every week.

Advanced certificate course in diabetology and cardiology

Clinical Cardiometabolic Society of India (CCDSI) started its Academic wing, Indian College of Cardio-diabetology and Metabolic Diseases (ICCMD) in December 2020. It's aim is to Educate and provide training to General Physicians in fields of Diabetes, Cardio-diabetology, Hypertension, Nephrology and Metabolic Diseases. Dr. R. Rajsekar is the Founder Dean of the College and its Head Quarter is located at CCDSI office, Gaya.

Fellowship

CCDSI & ICCMD has started Fellowship called FICCMD from 2021. We awarded fellowships to our founder and senior members this year.

Diploma Courses

ICCMD is going to start the diploma courses in diabetes, cardiology and echocardiography for eligible candidates in coming days.

Patients and community education

We serve the community by doing various disease screening camps, health awareness programs, and public lectures on cardio-diabetic and metabolic diseases in various parts of country under our banner.

Note: Join us in forthcoming annual conference, 4th - 6th November, 2022 in Goa.

**We invite you to join this elite
society to make it more vibrant.
Long live CCDSI !**
